Although we had been practicing IPM in the Granville County Schools we were having trouble getting the needed cooperation from the school staff. Dr. Godfrey was most helpful in securing that cooperation. He was also helpful in fine tuning my technicians on some of the finer points of the program. I have found our participation in the program most beneficial. We have seen reduced callbacks and less pesticide use, the end result has shown up on the bottom line.

Sincerely

A handwritten signature in black ink, appearing to read "Mark Harrison", is written over the word "Sincerely".
